Glowfly[®] Universal Hot Surface Igniter Honeywell

Capture a whole new species of ignition excellence.

Introducing Glowfly.®

The first truly universal, universal hot surface igniter.

Replacing a hot surface igniter can be a tricky job. Furnace designs and specifications change. Burner designs can be tight and difficult to maneuver in. Then there's the need to carry a variety of replacement parts to match the range of furnace brands out there.

Now, those challenges have one reliable solution: Glowfly[®] from Honeywell.

The latest technology, true "universal" installation, OEM quality — Glowfly brings it all together in one easy-to-use solution. Backed by the full experience and innovation of Honeywell, Glowfly is sure to become a "must have" on every contractor's truck. Here's why:

The toughest technology: Silicon Nitride

This second-generation material is far more durable than original OEM igniters, making it less prone to breakage when used in challenging installs.

Easier fit. Faster job.

The Glowfly's optimized form factor enables quicker, easier service calls. Glowfly has specifically been designed for service replacement jobs.

Next-generation OEM silicon nitride quality for any installation.

Glowfly brings the latest technology and OEM quality to even the oldest furnaces.

Custom designed bracketing.

With six custom designed brackets and their seven configurations, Glowfly fits most replacement igniter applications.

The strongest warranty in the industry.

Glowfly is backed by Honeywell with a three year warranty.

New species, new experience

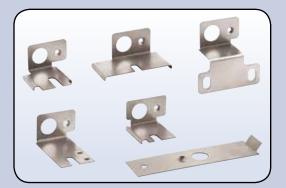

Available as single units or in convenient six-packs.

Never be caught unprepared with Glowfly's unique truck-ready six-pack.

Match and mount simplicity.

Simply remove the old igniter and compare it with the diagrams on Glowfly's unique packaging guide to determine the correct mounting bracket for the job.

Six brackets. 110+ possibilities.

Every Glowfly comes fully equipped with six custom mounting brackets that are optimized to replace over 110 igniter applications from nearly every furnace manufacturer without modification.

Glowfly® excels in furnaces from the leading manufacturers.

^a Table data is correct to the best of Honeywell's knowledge as of this publication's date. However, some appliances may have igniter applications that are beyond the capabilities of this kit.

67-7316 PR July 2012

© 2012 Honeywell International Inc.

^b For igniters that require bracket A, use the template (Fig. 2 on page 3) to determine the tab to be removed.

^c For Carrier sealed combustion furnaces, you must use bracket E and retain the existing orange gasket for use with bracket E.
