Air Handlers **Single Piece**

R410a

Save Energy, Save Money, Go Green*

Ducane™ air handlers have a wide range of capacities, variable configurations and multi-speed units, and are designed to improve the efficiency of any air conditioner or heat pump. The direct-drive motor runs smoothly and efficiently. Variable speed models produce even more comfort with better air quality and humidity control. Matched with the appropriate air conditioner or heat pump, you can enjoy system efficiency of 13–18 SEER.

Built To Last

Rugged construction and durable materials – like prepainted steel cabinets – provide years of trouble-free operation. The high-quality parts carry a ten-year warranty** to provide extra peace of mind.
