Air Conditioning & Heating

## KEEP YOUR FAMILY IN ENERGY-EFFICIENT COMFORT FOR YEARS TO COME.

The Goodman® brand GPH13M Heat Pump provides refreshingly-affordable value to homeowners and small businesses.

Goodman brand Packaged Units deliver quiet, year-round comfort from a single, self-contained unit. These energy-efficient units operate as an air conditioner during warm weather, and in the winter deliver heat pump-generated warmth.

## COMFORT. SAVINGS. PERFORMANCE.

### PACKAGED HEAT PUMPS

The energy-efficient Goodman brand GPH13M Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

### R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, our Goodman GPH13M Packaged Heat Pump will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

### YEAR-ROUND EFFICIENCY

“SEER” stands for Seasonal Energy Efficiency Ratio, which is a measurement of an air conditioner’s cooling energy efficiency developed by the U.S. Department of Energy. It’s a simple formula: the higher the SEER of your unit, the greater its efficiency—and the lower your operating costs.

When properly installed, your new Goodman brand GPH13M Packaged Heat Pump offers efficiencies that provide significant savings compared to lower SEER units.

### EXCEPTIONAL QUALITY

You can depend on well-designed, top-quality, thoroughly tested products. Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

### RELIABILITY AND LONG LIFE

One of the most critical components of a packaged heat pump is the compressor. Our GPH13M Packaged Heat Pump boasts a high-performance, energy-efficient compressor, which operates in tandem with our energy-efficient coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

## IMPRESSIVE FEATURES AND BENEFITS: GOODMAN® BRAND GPH13M PACKAGED HEAT PUMP UNIT

- 10-Year Parts Limited Warranty\*
- Chlorine-free R-410A refrigerant
- 13 SEER/Up to 8.0 HSPF
- High-quality, energy-efficient compressor
- EEM blower motor (only on 4 and 5-ton units.)
- Quality powder-paint finish resists fading and corrosion
- Fully-insulated blower compartment for quiet operation
- Meets California low-NOx emissions requirements
