

3310 Series Fan Forced Electric Wall Heater

TYPICAL SPECIFICATION:

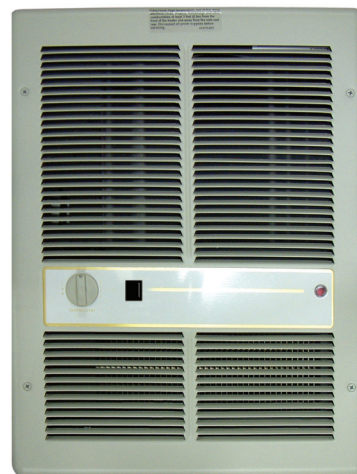

Furnish and install Electric Forced Air Heaters, Series 3310, where specified. The heaters shall be constructed of a heavy gauge steel housing. The rough-in dimensions are 19-5/16" high x 14-3/16" wide x 4" deep. The finish shall be powder-coated paint in ivory or white color. The units shall be available in ratings from 750 through 4800 watts.

The heaters shall have a low speed 600-RPM motor, which drives a vane axial blower to deliver a quite 175 CFM of down flow air. The heating element shall be of the sealed tubular type with large, parallel steel fins for quick heat transfer. Unit shall have a standard thermal overload cutoff for added safety, a fan switch for fan only operation, and a built-in thermostat which shall be calibrated to provide a range of 55 degrees F. to 85 degrees F.

All heaters shall be listed by Underwriters' Laboratories Incorporated. The heating element shall be supplied with a manufacturer's 1-year warranty.
