Gas Furnaces Mid-Efficiency

80^{afue}

Homeowner Features

Energy Savings

80% AFUE Rating

Upgrading your old model furnace with a new higher AFUE-rated furnace could save you significantly on your energy bills.

Comfort

Electronic Control System

Controls every function of the furnace with digital accuracy to keep your home comfortable.

Durability

Aluminized Steel Heat Exchangers

Reliable, corrosion resistant, and guaranteed for the life of the furnace.

100% Run-Tested in Factory

Each unit undergoes a thorough, rigorous inspection and performance test before leaving the factory.

Warranty

10-year limited parts warranty. Lifetime limited heat exchanger warranty!*

Quiet

Anti-Vibration Blower Assembly

Reduces noise typically associated with starts and stops.

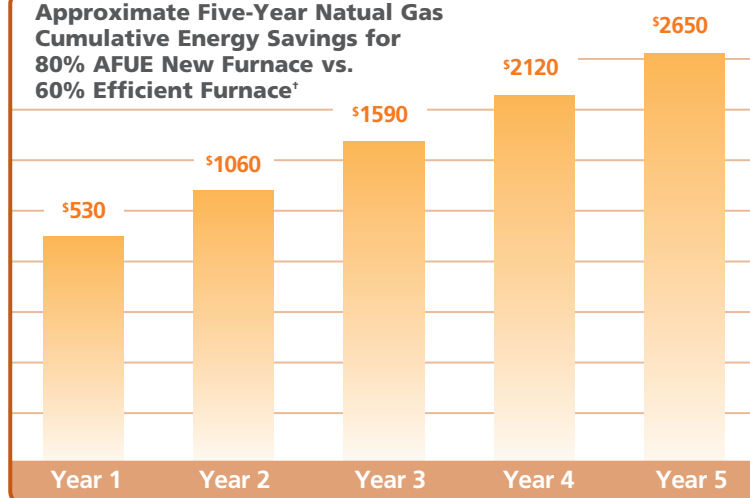

AFUE-Annual Fuel Utilization Efficiency

SAVE up to \$530.00

a year on your natural gas bill with our 80% AFUE Furnace.†

Approximate Five-Year Natural Gas Cumulative Energy Savings for 80% AFUE New Furnace vs. 60% Efficient Furnace*

* Applies to residential applications only. See full warranty at www.alliedair.com for terms, conditions and exclusions.

† Cumulative gas usage savings based on 2008 National Residential Retail Average Natural Gas price of \$1.35 per thousand cubic feet, per US Department of Energy. Based on 100,000 btuh inputs and assuming 60% AFUE for existing unit. Actual costs may vary on systems settings, equipment installation and maintenance, duct system, local climate, local utility rates and hours of operation.

Note: Due to Allied Air Enterprises' ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice.
