GMSS96 SINGLE-STAGE GAS FURNACE

HIGH-EFFICIENCY, MULTI-SPEED
UP TO 96% AFUE PERFORMANCE

Upflow/Horizontal

At Goodman, we believe in American dependability. Units are designed, engineered and assembled in the U.S.A.
The best gas furnace is the kind you don’t have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently all winter long as needed. The Goodman GMSS96 is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even heat you feel in every corner of your home is an energy-efficient warming trend that’s designed to stay for many years.

Don’t high utility bills make you hot under the collar?

High heating bills burn us up, too. Our complete line of gas furnaces are priced to help add comfort to your budget from a local independent dealer. And that’s only the beginning. We want you to smile every time you open your utility bill, so we design into our units proven energy-efficient technology.

Taking pride in our company heritage.

Goodman® brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values too. Goodman believes in the integrity of the American worker. That’s why Goodman brand heating and cooling systems are designed, engineered and assembled in the United States.

Experience reliable indoor comfort for everyone in your home winter after winter after winter.
A LOT GOES INTO EVERY GOODMAN® BRAND GMSS96 GAS FURNACE

The art of precision

**Aluminized Steel Tubular Primary Heat Exchanger** – Distinctive tubular aluminized steel construction formed using wrinkle-bend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.

**Efficient and Quiet Multi-Speed Circulator Motor** – Provides quiet system startup and shutdown with highly-efficient performance.

**Goodman gas furnaces simply work the way they’re supposed to, making each one a thing of beauty.**

**Durable Silicon Nitride Igniter** – Eliminates the need for an energy-wasting pilot light.

**Quiet, Single-Speed, Induced-Draft Blower** – Provides precise control and enhanced energy-efficient performance as compared to a natural draft furnace.

**Self-Diagnostic Control Board** – Continuously monitors the system for consistent, reliable operation, stores last diagnostic codes in memory and indicates condition through LED for quick troubleshooting.

**Thermally-Insulated Cabinet** – The fully insulated cabinet means air leakage of less than 2% to maximize the heat transfer efficiency and lower blower noise.

COMPONENT UPGRADE OFFERS BETTER PERFORMANCE

The aluminized steel, tubular primary heat exchanger featured in Goodman brand gas furnaces is likely the most essential component in a gas furnace’s performance. This distinctive heat exchanger employs wrinkle-bend technology which was developed to deliver extraordinary durability and long-term reliability.

When your current furnace breaks, it’s good to know that your local, independent Goodman® brand contractor has financing options available to help defray what might be considered an emergency purchase for your home.
COUNT ON OUTSTANDING LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 10-Year Unit Replacement Limited Warranty, Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Ask your dealer for full details.

PERFORMANCE
The 96% AFUE rating on this gas furnace means that 96 cents of every energy dollar warms your home. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential gas furnaces.
Many of your neighbors may have discovered that a reliable and energy-efficient home comfort system doesn’t have to cost a fortune. Goodman® brand whole-house systems feature many of the latest and greatest money-saving technology benefits that we can offer. They are designed and engineered to run quietly and pretty much worry-free.

Independent, dependable, courteous, prompt, honest, highly-skilled and respectful of you and your home. That’s why all the time homeowners say, “These guys are good – really good.”
