GPD14
PACKAGED DUAL FUEL UNIT
ENERGY-EFFICIENT COMPRESSOR
UP TO 14.5 SEER, 8.0 HSPF, 81% AFUE
Multi-Position Installation

Thank goodness for Goodman.

At Goodman, we believe in American dependability. Units are designed, engineered and assembled in the U.S.A.
The best packaged system is the kind you don’t have to worry about. It comes on the moment you need it and then runs quietly and efficiently all year long. The Goodman GPD14 is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend that’s here to stay for many years.

Our complete line of packaged systems are priced to help add comfort to your budget from a local independent Goodman dealer. And that’s only the beginning. We want you to smile every time you open your utility bill, so we design energy-efficient technology into our units.

Goodman will keep you cool as a cucumber.  

Don’t let high utility bills make you lose your cool.

Goodman® brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values, too. Goodman believes in the integrity of the American worker. That’s why Goodman brand heating and cooling systems are designed, engineered and assembled in the United States.

Experience reliable indoor comfort for everyone in your home season after season.
A LOT GOES INTO EVERY GOODMAN® BRAND
GPD14 PACKAGED UNIT

The art of precision

**High-Efficiency Compressor** – Compressor will provide years of reliable cooling comfort. Scroll compressor design has fewer moving parts and uses less energy compared to reciprocating compressors. Uses chlorine-free R-410A refrigerant.

**All-Aluminum Evaporator Coil** – A single metal solution that is designed for enhanced durability and performance (select models).

**Goodman packaged units provide you with reliable, energy-efficient and affordable indoor comfort.**

**Multi-Speed ECM Blower Motor** – Automatically adjusts airflow to match comfort needs, reduces energy consumption and system noise as compared to single-stage motors.

**Refrigeration-Grade Premium Copper Tubing and Aluminum Fin Condenser Coil Configuration** – Delivers outstanding heat transfer properties.

**Heavy-Gauge Galvanized Steel Enclosure with Powder-Paint Finish** – Protects your system from extreme outdoor elements.

**Fully-Insulated Blower Compartment** – Designed for quiet performance. Panels are conveniently located to provide easy access.

**COMPONENT UPGRADE OFFERS BETTER PERFORMANCE**

The aluminized steel, tubular primary heat exchanger featured in Goodman brand packaged units is likely the most essential component in a packaged unit’s performance. This distinctive heat exchanger employs wrinkle-bend technology which was developed to deliver extraordnary durability and long-term reliability.

**DUAL FUEL EQUAL DUAL SAVINGS**

When properly installed and configured, a dual fuel packaged heat pump system can determine whether it’s more economical to heat your home using electricity or natural gas. The GPD14 dual fuel packaged system offers an incredible combination of indoor comfort and energy-efficient performance every month of the year.

When the thermostat calls for cooling performance, the heat pump in this unit functions just like a central air conditioner keeping you cool and comfortable even on the hottest days of summer. In the months when you need moderate heating output, the heat pump automatically reverses the refrigerant flow to provide warm air in your home. And on the coldest days of winter, the gas furnace in this packaged unit provides reliable, consistent heat.

The 81% AFUE rating on this packaged unit means that 81 cents of every energy dollar warms your home. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential packaged units.
Independent, dependable, courteous, prompt, honest, highly-skilled and respectful of you and your home. That’s why all the time homeowners say,

“These guys are good – really good.”

Why does Goodman have such a large fan base?

Many of your neighbors may have discovered that a reliable and energy-efficient home comfort system doesn’t have to cost a fortune. Goodman® brand whole-house systems feature many of the latest and greatest money-saving technology benefits that we can offer. They are designed and engineered to run quietly and pretty much worry-free.
