

Haier Mini-Splits

Keep homes and offices cool all summer long

Haier mini-splits have a high energy efficiency rating of 13 SEER. This leads to lower energy costs and less damage to the environment. The unit is ultra-quiet, with no annoying humming or rattling noises. With an auto restart function and a 24-hour on/off timer, it is convenient and easy to maintain the ideal temperature in the home. Additional features, including an auto sleep mode and a dehumidifying function allow custom home comfort at the touch of a button. With high-speed cooling, relief from the heat is only minutes away with a Haier mini-split!

Haier

Haier mini-splits also have an elegant design with an arc front panel. More compact and stylish than a room air conditioner, this mini-split will blend nicely into any home.

12,000 BTU

18,000 BTU

Why choose a Haier Mini-Split?

There are times when it is physically impossible or impractical to install a central air conditioning system or heat pump. Ductless split systems can be applied to numerous applications, including:

- Hotels
- Homes
- Sunrooms
- Restaurants
- Offices
- Apartments
- Condos
- Townhomes
- Nursing Homes
- Recreation Centres

Ductless split systems are quieter than conventional central air conditioners, making them a practical and attractive choice for your home.
